Fellow Nomination - Endorsement Submission

Acknowledgement - To Fellow Grade Endorsement

In some cases, the significance of a nominee's contributions and/or achievements may be best understood and evaluated by a recognized individual inside or outside the electrical and electronics engineering profession, who is not an IEEE Fellow or even an IEEE member. Although an endorsement of a nominee is optional, the submission of such material will contribute to the evaluation process and should not be overlooked. An endorsement will strengthen a nomination if it contains information on specific contributions that, in the opinion of the endorsement, qualify the nominee for IEEE Fellow grade.

Endorsements will be shared with the IEEE Society/Council Fellow Evaluating Committees reviewing the nomination.

The endorsement **must** be received on or before **07 February.**
